

Invitation to Journal of Applied Electrochemistry, Special Issue 12<sup>th</sup>: Electrochemistry for electrification and energy transition toward a sustainable future.

All presenters at the 12<sup>th</sup> ESEE meeting in Leeuwarden, The Netherlands, June 14-17, 2021 are invited to submit one manuscript to this special issue.

Instructions for authors are provided in the following site:

<http://www.springer.com/chemistry/electrochemistry/journal/10800>. When login into the submission process please choose "Special Issue 12<sup>th</sup>: Electrochemistry for electrification and energy transition toward a sustainable future". Submissions are welcome during the period June 21, 2021 to September 15, 2021.

There should be a minimum of 14 papers in the special issue. If this number is not reached, the papers will be published in the regular issues of the Journal.

Looking forward to your contributions, kind regards
